

Myth of Manunkind

Top of the food chain humans have claimed due to the fact they can kill , scare , and mindfuck every other creature including themselves. First befor we even get started on that line of horse dunge let me state,

1. humans are the only creature that needs assistance to give birth
2. feeding themselves is hardly ever an option
3. They need shelter to be provided
4. they call themselves civilized but do horrible things on a personal and global level
5. they destroy the earth to live and live to destroy, most animals live in harmony with the surrounding world respecting the chain of life of which to them we are only relevant as a threat to their existence as we deem them beasts pests and not knowing their purpose we cull them for our comfort. Yet most people are not comfortable but press on out of fear they may lose their given stability.
6. A dog licks his own balls but women want a man but not to hold and be with in an intimate way emotional blackmail.

We play mind games money games, we murder and threaten to get no more ahead than any others all the time claiming to be higher up than animals that constantly show if they want you dead you die no threat just life, So if we are helpless and bear cubs are only 1 when they begin independent life. They start being born to a sleeping mother they feed themselves from birth alone till spring. Name one human baby in history that has done that. Large packs of wild dogs called super packs are killed to protect man in the wild dogs mind every day he survives but man is threatened by so called evasive species and all things deemed evasive including other humans with an unpopular view on the world. We as humans spend a lot of our lives

1. serving others as we try to survive
2. threaten fight complain while doing very little to change what we do not like.
3. hurting judging hating teasing pestering laughing at others pain.
4. we toxify the earth in a never ending advancement that puts us back in other ways

every time we go forward, we made great advancements in medical science but yet push drugs even to the point of going against the better judgement of dr they kill people as an acceptable loss to make others pay hard earned money for people to be drugged imprisoned murdered and outcasted to the point of wanting to die.

5. with out social assistance schooling government money humans become primale surviving of the streets under roads in the left over of society waist, but if they try and build a home they are stopped forced out and put in jail no property was ever owned just by saying its your and no other so called lower creature act this waay or conforms by forced indoctrination by threat of loss of freedome that has never been there for humans.

6.we look at teck as advanced but most people do not have access to the tools they would need to show there full potetial by keeping smart alternative thinkers down you are not mastering your spieces you are enslaving them.

There are so many examples of why man is in FACT not at the top or even in the top ten or ten thousand they are at the bottom we all have the potential to become one with this living ball in space but we need to stop looking at rudimentary conquest as achievements stop looking at slavery as power and see... we call beast dogs women bitches and treat dogs so badly that we should be made to really see one time the horror we create for the sake of peace god and progress.

Dogs are higher as they can survive on their own they do better than when under our incompetent care, as we would without the incompetence brainwashed so called leaders of man. Not the best of use in fact not even good people as they spend and make us pay if not they imprison use must have phones computers or you become homeless then you are in violation of a bazillion made up crimes that serve no other purpose but control. Needing such control and slavery makes humans the most dysfunctional of all the beasts. They poison each other murder care but only for those with a desired opinion on

social topics if not they become like a pack only uniting to attack. Your Lie with a capital F is not hiegher then any beast for put yourself in simple servival mode and well watch a shit ton of movies and see how helpless humans are. There are strong ones but they are restricted by money ,laws ,society and they are never hurd. They are more advanced for one simple reason if you take everything from them they still move on in life against everything you through at them like roackes they live LIFE the gift from some creator modern man is not owed a debt for this but they continue to collect lie after lie after life.

To be free you need only to look at nature animals birds see how they do not fight life they live every day.

Hope this helps see how a person feels free in a prison planet...be yourselfe know that we are here today but nobody says whats next it may be heaven or hell...you decide.
